

Returning to school

Over the past few months, I have not been at school. I have been doing my schoolwork with my parents / carers. Lots of my friends from school have also been staying at home. Schools have been shut to keep me and my friends safe.

In September, it is time for me to go back to school, see some of my friends and do my learning with my teachers.

My teachers and friends will be happy to see me.

When I go back, some things will be different. This is to keep me safe.

I might find the changes difficult at first but there are lots of people there to help me. Everyone finds change hard. This is OK.

I will be learning and playing with my class 'bubble'.

Assemblies will happen in my classroom, not the hall.

I will have lunch and playtime on the playground with only the children from my class.

Some classes (R/1/2) will have lunch in the hall and some classes (3,4,5,6) will have lunch in their classrooms.

The adults from my class will be on the playground and in the hall to help me.

My teachers will ask me to make sure I wash my hands more often and for 20 seconds. This helps keep me and everyone in my class safe. I will also need to catch my sneezes in a tissue and put this straight in the bin.

Six Steps to Washing Your Hands

I might not be able to use all of the spaces in school that I used to.

This is ok. My class 'bubble' will be able to use the classroom, one of our 'breakout' spaces and the playground.

The adults from my class will be able to help me if I am not sure.

To stay safe

**we stay in
our bubble.**

All of the people who help me to learn will be at school and so will my friends. School will be a happy place to learn and I will get to do lots of fun things. If I feel unsure, the adults in my classroom will help.
