

Our School Improvement Plan 2016-2017

Keep developing SMART so that we are all REALLY INSPIRED about learning! Our parents read and comment in our books each week.

Work hard to make sure feedback really helps move learning on. Get good at understanding targets and how to be even better learners.

Be ambitious and aim high! Trying to be the best that we can! SMART work will help!

Keeping safe and understanding stranger danger both online and in real life.

House Teams meet to discuss ideas such as growth mindset, feeling confident in who we are and a day of music.

House team days help us to work as teams, look at our values, learn about others.

Science – to make lessons really inspiring!

Reading Champions work with us to make sure children all love reading!

Reading Eggs is really inspiring us too!

T4W (Talk for Writing) is exciting! We learn to talk about a text before we then write it down! We are working with other schools on this as well. This will really help us to become better writers.

Miss Cranfield is the Solutions Sheriff and is there to help all children to have the best playtimes ever!

We want to teach you all how to assess risks and keep yourselves safe.

PE and sports are really important – making sure girls are involved and we have plenty of inter-house tournaments!

Emma teaches us yoga and peer massage to keep our bodies and minds healthy.

Staff are keeping fit too and making sure they get plenty of fresh air and exercise.

Healthy snacks and meals are important and keep our brains awake and ready to learn! We will be doing surveys and finding out what you all think!

Everyone will have cookery lessons with Susan! Watch out Jamie Oliver here we come!

We will continue to make sure boys love learning and school! Better playtimes, more practical and fun lessons, texts to parents, stickers explaining success and listening to your ideas and ambitions! Gary Wilson (an amazing man) will come and speak to teachers across DEEP about why boys are so brilliant!
